

# Trigno Avanti<sup>®</sup> EMG Sensors and Hand Dynamometry Join Forces to Optimize Hand Performance & Recovery

## Consistent

Reliable measurement of muscle forces, muscle fatigue, grip stability, and grip strength.

## Real-world applications

Evaluate disorders & aging, track rehab progress, and inform strength training regimens

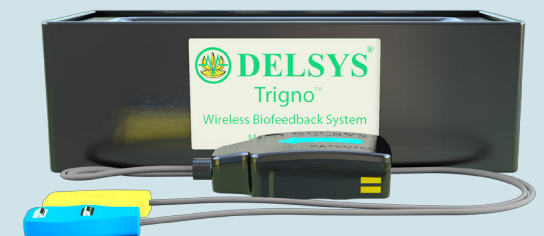

## Quick

Performance results print instantly onto PDF reports

## Hands-on tools

User-friendly instructional videos, sensor placement guides, and report templates

# Combining muscle force and grip strength to monitor:

- ✓ Hand Stability
- ✓ Hand Strength
- ✓ Hand Fatigue

## WHAT'S IN THE PACKAGE

- 1x Trigno Duo Sensor (2-ch. EMG)
- 1x Samsung tablet
- 1x Dynamometer (JAMAR handheld or Activ5)
- 1x HPM app + Mobile EMG Suite apps
- 1x Trigno Avanti Charge Station (4-sensor)
- 2x Trigno Sensor Skin Interface (80/pk)
- 1x Trigno Power Adapter
- 1x EMGworks 4.x Pro License
- 1x User Guide
